

Craig Clark

President of Lead Operations

Craig Clark serves as the President of Lead Operations, responsible for the global lead business, after joining Ecobat in 2017 and first leading the California operation as the Managing Director of the North American business.

As a Six Sigma Blackbelt, he has led numerous lean business improvement initiatives across multiple industries. Prior to Ecobat, Craig was a member of the senior leadership team at Rio Tinto Minerals. As the Director of Health, Safety, Environment, and Quality for Rio Tinto Minerals Division, he was responsible for HSEQ for 7 international sites. He led programs in Operational Excellence, Environmental Stewardship, Safety Leadership, Air Quality and Critical Risk Management.

Craig also held senior leadership roles in Engineering, Maintenance, Reliability Engineering, Warehouse Management, Power Plant, and Cogen operations with BBA Fiberweb (formally DuPont) and International Paper.

Craig has a BS degree in Science for Mechanical Engineering from University of Maine. He and his wife live in Colleyville, Texas.
