This includes companies from the following categories: IT services, logistics, printing services, telecommunications, debt collection, counselling and consulting as well as distribution and marketing.

Regarding data dissemination to recipients outside our company, we may disseminate information about you only where this is required by statutory provisions, you have given your consent or we are authorised to provide information.

#### How long will my data be retained?

Where necessary, we process and retain your personal data for the duration of our business relationship, including the initiation and implementation of a contract, for example. In this context, it must be noted that our business relationship may also be a continuing obligation set up for years and usually indefinite.

Moreover, we are subject to various retention and documentation obligations resulting, inter alia, from the German Commercial Code (HGB) and the Fiscal Code of Germany (AO). The retention or documentation periods stipulated there are between two and ten years.

Finally, the retention period is also determined by the statutory limitation periods which, for example acc. to Sections 195 et seqq. BGB (German Civil Code), are generally three years, but may also be up to thirty years in some cases.
