

Jamie Lee

Chief Information Officer

Jamie Lee joined Ecobat in September 2020 as Chief Information Officer.

Jamie has nearly 30 years of experience leading digital transformation and strategic planning and plays a key role in Ecobat's digital execution and transformation.

Prior to Ecobat, Jamie served as Chief Information Officer for Wabash National Corporation. His role focused on public company compliance, lean enterprise, IoT, predictive analytics, cyber security resilience and ERP transformation.

Prior to his work at Wabash, he was Vice President of Information Technology for Stanley Black & Decker, and Directors of both Enterprise Project Management and Enterprise Applications.

Jamie's community involvement includes prior appointments as Industry Advisor for Cyber Security to State of Indiana, Technology Board for the United Way, and Alumni Board for Purdue University Polytechnic.

He has been published in CIO Review, featured on Inside Indiana Business for IoT in Transportation, and Purdue University's 150 Years of Giant Leaps.

Jamie holds a BS from Purdue University and an MBA, Accounting and Finance from Smartly Institute.
