Arizona Department of Environmental Quality
Hazardous Waste Permits
1110 W Washington Street
Phoenix, AZ 85007

Attention: Anthony Leverock

Subject: Notice of Intent
RCRA Part B Permit

Dear Mr. Leverock:

Please find the following Notice of Intent to submit a RCRA Part B Permit application for Ecobat Solutions Arizona, Inc.

Location of Facility: 1474 N. VIP Blvd, Casa Grande, AZ.

EPA ID Number: AZR000527002
(Received 05/04/2023)

Tentative Date for Submittal: Mid-Third Quarter 2023

Ecobat is a leader in the collection, recycling, production, and distribution of resources essential to modern life. Ecobat plays an essential role in the closed-loop supply chain through the recycling and production of lead used in energy storage solutions, the collection of end-of-life batteries, and the distribution of new batteries. We apply the same mindset and approach to lithium batteries, as we continue to develop and support this evolving technology with goals of reaching the same closed-loop recycling rates of lead.

Our operations extend throughout Europe, the United States, and Southern Africa, creating a vast network that powers industries worldwide. We have 14 smelting facilities, three lithium-directed facilities, a collection truck fleet, and 65,000 battery collection points, offering seamless service for battery collection and recycling.

The Ecobat name first appeared in 1938 in Italy. Ecobat's predecessor companies began operating lead recycling facilities in the United States in the early 1900's.

Our Corporate Offices are located at: 2121 N. Pearl Street
Suite 1400
Dallas, Texas 75201

Locally Ecobat operates an anode fabrication facility located at 602 North Swanson Street, Casa Grande, AZ.

Access to the facility will be provided by: Mike Buckantz
Manager, Environmental, Technical Support
(714) 625-7020
